## **Landlord Representation Services**

### **Key Objectives of an Organized Leasing Process**

---

**Garnett Commercial** will provide for and guide Client's Property through an **Organized Leasing Process**. We will help the Client navigate the following key elements of the Leasing Process:

#### ➤ **Prospect Identification**

- Garnett Data Base of Tenants.
- List Property on JackGarnett.com, CoStar.com, LoopNet.com, Showcase.com and TotalCommercial.com.
- Property Signage.
- Quarterly Broker E-Mail.
- Provide information to the Chamber and Jacksonville Economic Development Commission.
- Cold Calling competitive properties in the sub-market.
- Possibly request funding for Direct Mail piece to businesses in area zip codes.
- Possibly request funding for print advertising in the future.

#### ➤ **Pre-Qualification**

Whenever possible, we gather detailed information about the Tenant prospect and their needs prior to the site visit. This includes asking questions about the following Tenant and deal related issues:

- Tenant name, business sector and use of space.
- Tenant credit worthiness.
- Size requirement and expansion needs.
- Type of space and tenant improvements needed (office intensive, open landscape, special requirements, etc...).
- Lease term.
- Occupancy timeframe.
- Number of employees (parking requirements).

The answers to these questions may dramatically affect whether our vacancy fits their needs, the level of Landlord out of pocket expenses we are willing incur or whether we want to do business with them at all.

#### ➤ **Warm Up – Rapport**

This initial investment of time will give us a feel for structuring the overall presentation. (Some prospects only want the facts, while others will be more comfortable with a casual discussion during the presentation.)

#### ➤ **Marketing Materials**

Typical marketing materials include:

- Color photographs of the Building.
- Location Map.
- Building information outline.
- Detailed description of building improvements.
- Building Ownership information (optional).
- As-built space plans.
- Aerial photograph.

#### ➤ **Site Visit Agenda**

First define the time you have for the presentation.  
Is the decision maker present?

Have marketing materials for each person present if possible.  
Get answers to the above noted questions if not secured during Pre-qualification.  
Work features and benefits of the property into the conversation.  
Sell the three quality issues:

- Quality of the Product (Building and its attributes).
- Quality of Service (Property Management and Maintenance Staff).
- Quality of Ownership (Financial Stability and Commitment to keeping the facility at the class "A" level.)

Show our vacancy and how it fits the client's requirements.  
Attempt to get the prospect to mentally space plan the space (brainstorm placing individuals or departments in areas as you walk through) (ask questions that lead to this).  
Share expectations (theirs and the Landlords).  
Trial Close – Will our space be included on the short list or make the proposal stage?  
Offer space planning if necessary to show that space can fit their needs (optional).  
Ask if there is anything that we have missed or any questions that have gone unanswered?

➤ **Follow Up**

Provide a written follow up to the Client Prospect and or Broker if possible.  
Provide answers to any Client Prospect questions that we were unable to answer during the site visit.  
Follow up telephone contacts weekly with the Client Prospect and or Broker.  
Make every attempt to be short-listed and or make it to the proposal stage.

➤ **Proposal Stage**

Secure Request for Proposal document if available.  
Define required tenant improvements (space plan if necessary).  
Price tenant improvements in order to clearly define Landlord costs (may require Landlord involvement).  
Draft proposal and deal financial analysis for Landlord approval.  
Deliver proposal to Client Prospect or Broker.  
Follow up.  
Negotiate as necessary.

➤ **Lease Document Stage**

Provide copy of Proposal Summary or Letter of Intent to Lease to Landlord's Attorney.  
Assist and manage process of drafting Lease document.  
Deliver Lease document to Client Tenant or Broker.  
Assist in negotiations of Lease language as necessary.

**Close the Deal.**

➤ **Delivery of Premises**

Assist as necessary in the delivery of the Premises and required monitoring of tenant improvements.  
Assist as necessary with Tenant move in issues.  
Follow up after Tenant move in to clear up any remaining issues and make sure Tenant is satisfied.

**The Overriding Objective will be to Create as Many Opportunities as Possible for the Clients Property.**
